Join us for an immersive 2-day Rhinology Symposium in **Copenhagen** brought to you by the Danish ENT Academy. This symposium brings together leading experts in rhinology to share their knowledge and expertise.

Symposium Highlights:

- **Rhinology Session:** Learn about the latest techniques in rhinoplasty and septoplasty. Gain insights into managing complications and much more.
- **Sinus Surgery Session:** Discover approaches, preparation, and goals in endoscopic sinus surgery, along with alternative methods.
- **Inflammation Session:** Gain an understanding of inflammatory conditions and the latest advances in biological treatments.
- **Tumors Session:** Dive into benign and malignant nasal tumors and learn about advanced reconstruction methods.
- **Allergy Session:** Stay updated on the latest developments in allergy treatment and hear about post-COVID effects on smell and taste.
- **Facial Pain Session:** Understand the causes of facial pain and get insights into sinus evaluation using cone-beam technology.

Don't miss out on this extraordinary opportunity. For more information see: <https://entdenmark.com/rhinology>
